Portable Spa Warranty

The Spa Industries Warranty is one of the best in its class. It is deductible-free so you won't have to pay to have warranty work done on your spa. The Spa Industries Warranty is also not prorated, meaning the warranty is as strong at the end of the term as it is in the beginning.

Spa Industries extends warranty coverage solely to the end-user purchaser ("Owner") of any portable Spa Industries manufactured on or after November 1, 2009 and later models installed for residential use in Australia and New Zealand.

10-Year Shell Structure Warranty

Spa Industries warrants the shell against degradation for 10 years from the original retail purchase date of the spa. After four years from the original spa purchase date, the defective spa must be sent to Spa Industries for repair at no charge. This warranty specifically covers leaks from the spa shell.

2-Year Shell Surface Warranty

Spa Industries warrants the surface finish of the Spa not to crack, fade, wrinkle, blister, peel or delaminate for two years from the original spa purchase date. This warranty specifically covers the spa shell and the repair method is at the discretion of Spa Industries.

2-Year EternaWood™ Cabinet and TuffBase™ Warranty

Spa Industries warrants the EternaWood™ cabinet sections of the Spa against degradation and cracking for two years from the original spa purchase date. This warranty specifically covers the cabinet corners, door and side panels and the moulded spa base. The doors are deemed Easily Removed Components, and when found defective, will be replaced free of charge at your authorized Spa Industries Dealer or by sending the defective component(s) to Spa Industries.

2-Year Timber Cabinet Structural Warranty

Spa Industries warrants the cabinet against defects in materials and workmanship for a period of 2 years. The warranty is not extended to wear and appearance of the product, as timber is a natural product and varies in its reaction to environmental conditions etc. If the spa is left out in the open unprotected from the elements, the timber will need to be treated regularly. Surface cracks are not considered defects in material and workmanship, as they are normal characteristics of all timber.

2 Year Equipment Warranty

With the exception of intentional damage, Spa Industries unconditionally warrants the electrical and mechanical equipment (excluding the Stereo System and remote controls) of the Spa Industries Spa, along with its associated piping and fittings, against failure that would require repair or replacement for two years from the original spa purchase date. This warranty specifically covers the pump(s), heater, control system (including fuses), LED light, ozone unit, jets, stainless steel escutcheons, filter caps and other Spa Industries mechanical equipment, and leaks from any component or plumbing fitting located beneath the spa shell. Defective components that are easily removed from the spa, such as the LED light, jet nozzles and other Spa Industries mechanical equipment that can be readily replaced by the customer and do not require specialized tools or knowledge or create personal safety issues, all of which are deemed Easily Removed Components, will be repaired or replaced free of charge at your authorized Spa Industries Spa Dealer or by sending the defective component(s) to Spa Industries.

Other Warranties

- Spa Industries warrants the Spa Industries Spa Stereo System and Blowers against defects in materials and workmanship for one year from the original spa purchase date.
- Spa Industries warrants the Spa Industries headrests and filter cartridge(s) against defects in materials and workmanship through time of delivery.
- Spa covers and all other spa accessories attached to the Spa Industries Portable Spa after date of manufacture are not covered by this limited warranty. Please refer to the manufacturer of such products for information regarding warranty coverage.

Warranty Performance

Spa Industries or its authorized agent will repair any malfunction and replace any defective component on the Spa that is covered under the terms of this warranty and was purchased from an authorized Spa Industries dealer. In doing so, Spa Industries reserves the right, at its option, to either repair or replace the defective spa or component. If Spa Industries determines that the repair of the defect is not feasible, we reserve the right to instead provide a replacement spa equal in value to the original purchase price of the defective spa. In such an event costs for removal of the defective spa, shipping costs of the replacement spa and delivery will be the responsibility of the spa owner. Spa Industries reserves the right to use either new or reconditioned replacements components. The servicing dealer may charge you a reasonable travel mileage fee for travel outside a 50 km radius from the place of purchase. Any repair or replacement shall provide no new warranty coverage, but shall retain only the remaining portion of the original product's warranty. To obtain warranty service, contact your authorized Spa Industries Dealer or Spa Industries and submit proof of purchase. If no proof of purchase, warranty will be deemed to be the Manufacturers date. Any defective spa or component sent directly to the factory for warranty repair must be pre-authorized by Spa Industries and must be freight prepaid. Return freight will be paid by Spa Industries on all warranted components and spas, excluding any spa returned that is more than 4 years after its purchase date. If the entire spa is sent to the factory for repair, all costs of removing and re-installing the spa at spa owner's location will be the responsibility of the spa owner. Repair or replacement, as described above, shall be Spa Industries sole liability for any breach of this warranty.
